

App. no	Sl.No	Name of the item	Specifications	No of Units Reqd	Unit
1. PCI Sheath Systems and Radial Sheath Systems	1	PCI Sheath Systems	1. Percutaneous sheath systems comprising of sheath with hemostatic valve, sheath length approximately 11 cms, with a side tube and 3 way stopcock and puncture needle accommodating a 0.038" guide wire short length and a dilator length 17 cm approximately to be quoted as a set. Sizes: 4F, 5F, 6F, 7F, 8F, 9F, 14F: .	500 Sets	Per Set
	2	Radial Sheath Systems	Radial Sheaths with Introducer needle, Guide wire and dilator: Complete Set:	500 Sets	Per Set
2. Cath Angio Systems	1	Cournand Catheter	Right heart catheterization and diagnostic angiocardiology systems comprising of Cournand catheters, Goodale-Lubin catheter, NIH catheters. Left heart catheterization and diagnostic angiocardiology catheters comprising of Tight radius pigtail 8 sideholes open end, Standard radius pigtail 6 side holes, Van Tassel angled pigtails 8 sideholes, Gensini catheters, Sizes: 4F, 5F, 6F, 7F Length: 80-125 cms.	100 Nos	Each
	2	GL Catheter		100 Nos	Each
	3	NIH catheter		100 Nos	Each
	4	Pig-Tail Catheter		100 Nos	Each
	5	Gensini Catheter		100 Nos	Each
3. Coronary Angio Systems Femoral and Radial	1	Judkins Left	1. Coronary angiographic systems comprising Judkins left, Judkins right, Amplatz right, Amplatz left, Left coronary bypass, Right coronary by pass, Internal mammary artery, Multipurpose A1, A2, B1, B2, pigtail coronary catheters 12 side holes. Sizes: 3.5/4/5 4F, 5F, 6F, 7F	300 Nos	Each
	2	Judkins Right		300 Nos	Each
	3	Amplatz Left		100 Nos	Each
	4	Amplatz Right		100 Nos	Each
	5	LCB		50 Nos	Each
	6	RCB		50 Nos	Each
	7	IMA		50 Nos	Each
	8	Multipurpose		100 Nos	Each
	9	Pig Tail		100 Nos	Each
	10	Radial CAG		. Radial Coronary Angio Systems comprising of TIG Catheters;	500 nos

4. Swan-Ganz Systems	1	Swan-Ganz Balloon Caths	Balloon floatation systems comprising Swan-Ganz Balloon floatation catheter capable of accommodating 0.038" guide wire, balloon floatation temporary pacemaker leads, Balloon floatation systems Sizes: 5F,6F,7F	100 Nos	Each
	2	Berman Balloon Angio Caths	Sizes 5F, 6F, 7F	100 Nos	Each
	3	Balloon Temporary Pacing Leads	Sizes 4F, 5F,6F AND 7F	100 Nos	Each
5. Inoue Balloon Systems	1	Inoue Balloon Set	Inoue balloon comprising of reusable rubber latex balloon system, Inoue balloon catheter, dilator, syringe, ruler, stylet, spring guide wire with escape hole and a double layer spun to be quoted as a set. Sizes: 20, 22, 24, 26, 28, 30 mm. All FDA/CE/DCGI approved. Approximate nos: 20 sets.	50 Sets	Per Set
6. PTCA Balloon Systems	1	Rapid Exchange PTCA Balloons	1. Rapid exchange balloon systems with semicompliant / compliant design with excellent trackability and high inflation pressures capable of STENT delivery. All FDA/CE/DCGI approved. Sizes: 1.5/2/2.5/3/3.5/4 mm	100 Nos	Each
7. STENT Implantation Systems	1	Bare Balloon Mounted Coronary Stents	Implantable Coronary stents compliant design. Sizes: All available sizes, designs, and lengths to be quoted. All FDA/CE/DCGI approved.	50 Nos	Each
	2	Coated Coronary Stents Cobalt Chromium etc		50 Nos	Each
	3	Drug Eluting Coronary Stents Sirolimus, Paclitaxel etc		25 Nos	Each
	4	Covered Coronary Stents		25 Nos	Each
	5	Carotid Stents		10 Nos	Each

8. Mitral Valve Balloon Dilatation Systems	1	Mitral Valve Balloon Dilatation Set	All sizes of Mitral Valve balloon dilatation systems with reusable latex rubber balloon design and all accessories to be quoted as a set. All FDA/CE/DCGI approved.	50 Nos.	Each
9. Accessories for hemodynamic Monitoring	1	Pressure Manometer Lines Male-Female		100 Nos	Each
	2	Pressure Manometer Lines Male-Male		100 Nos	Each
	3	Three Way Stop Cocks		5000 Nos	Each
	4	High Pressure Contrast Injection Tube		1000 Nos	Each
10. Peripheral Diagnostic Systems	1	High Flow Angio Flush Caths	Peripheral diagnostic systems comprising of high flow angio flush caths, visceral caths braided braided multipurpose caths, braided cerebral caths, renal cobra double curves Size: 4F, 5F,6F,7F	50 Nos	Each
	2	Braided Visceral Caths		50 Nos	Each
	3	Braided Multipurpose Caths		50 Nos	Each
	4	Braided Cerebral caths		50 Nos	Each
	5	Renal Cobra Double Curve		50 Nos	Each
11. Peripheral Intervention Systems	1	Peripheral Balloons	Peripheral intervention systems comprising of Peripheral balloons, renal and carotid balloons, small vessel balloons, large balloons, guiding catheters, Vascular stents, Covered Stents for Peripheral Use., Stent grafts, occlusion balloons, venacava filter, infusion catheters, peripheral guide wires, sizing balloons, speciality guide wires, embolisation coils, endovascular snares, endovascular guide wires, embolisation particles. Sizes: All available sizes and lengths to be quoted.	50 Nos	Each
	2	Renal Balloons		50 Nos	Each
	3	Carotid Balloons		50 Nos	Each
	4	Small Vessel Balloons		50 Nos	Each
	5	Large Balloon caths		50 Nos	Each
	6	Peripheral //Carotid/Renal Guidings		50 Nos	Each
	7	Renal Stents		50 Nos	Each
	8	Vascular Stents		50 Nos	Each

	9	Stent Grafts	All FDA/CE/DCGI approved.	50 Nos	Each
	10	Occlusion Balloons		50 Nos	Each
	11	Vena Cava Filters		50 Nos	Each
	12	Infusion Catheters		50 Nos	Each
	13	Peripheral Guide Wires		50 Nos	Each
	14	Specialty Wires		50 Nos	Each
	15	Embolization Coils		50 Nos	Each
	16	Endovascular Snares		50 Nos	Each
	17	Embolization Particles		50 Nos	Each
12. EP Diagnostic Systems	1	Bipolar + Connector	EPS diagnostic study catheterization systems comprising of quadripolar, hexapolar, octapolar, connectors, coronary sinus, Halo mapping catheters with connectors. Sizes: All available sizes inter electrode distances and lengths to be quoted. Introducer sheaths like Biport and triport to be quoted. Connecting Cables to Bard EP Lab and Cordis EP Labs to be quoted. All FDA/CE/DCGI approved.	25 Nos	Each
	2	Tripolar + Connector		25 Nos	Each
	3	Quadripolar + Connector		25 Nos	Each
	4	Hexapolar + Connector		25 Nos	Each
	5	Octapolar + Connector		25 Nos	Each
	6	Coronary Sinus Decapolar + Connector		25 Nos	Each
	7	Halo type Mapping		25 Nos	Each
	8	Introducer Sheaths		25 Nos	Each
13. Transseptal Sheaths Systems	1	Brockenbrough Needle Curved Adult	Transseptal catheterization systems comprising of Brockenborough Transseptal needle curved Adult and Pediatric sizes, Mullins sheaths Adult and Pediatric and matching guide wires. Sizes: All available sizes and lengths to be quoted.	25 Nos	Each
	2	Brockenbrough Needle Curved Child		5 Nos	Each
	3	Mullins Sheath Adult		100 Nos	Each
	4	Mullins Sheath Child		25 Nos	Each

	5	Matching Guide Wires		100 Nos	Each
14. Radio-Frequency Ablation Systems	1	Thermocouple Bidirectional +Connector	Radio-frequency ablation catheter system comprising of RF ablation catheters quadpolar small/medium/large, Quadpolar standard, High torque distal, steerable Temp ablation catheters .Schwartz sheaths and introducers Transseptal needles and sheaths.All catheters should match EPT 1000 RF Ablation system and suitable connectors should be provided. Sizes: All sizes, lengths, and interelectrode distances should be quoted, Connecting Cables to EPT 1000, Cordis Stockert and St Jude IBI should be quoted. All FDA/CE /DCGI approved.	50 Nos	Each
	2	Schwartz Sheath		50 Nos	Each
	3	Transseptal Needle and Sheath		50 Nos	Each
	4	Temperature Cable		50 Nos	Each
15. Accessories for CAG	1	2/3 Rotating Manifold for CAG	Accessories for coronary angiography comprising 2-3way rotating manifold system for coronary angiography,3-3way rotating manifold system for coronary angiography/PTCA, 3 ring control syringes 10 ml,	500 nos	Each
	2	3/3 Rotating manifold for CAG		500 nos	Each
	3	3 Ring Control Syringes		500 nos	Each
16. PDA Occlusion Devices	1	PDA OCCLUSION DEVICE +DELIVERY SYSTEM+ TRANSEPTAL SHEATH+NON -TAPERING CATHETERS+ INTRODUCER SET	1.PDA interventional occlusive device system comprising ofAmplatzer Type PDA Device Closure Unit with matching delivery system and delivery sheaths with radioopaque bands.All FDA/CE /DCGI approved. To be quoted as One Set	25Sets	Per Set
	2	PDA COILS + PDA DELIVERY SYSTEMS- PDA INTRODUCER SYSTEMS	2. PDA coils with delivery system and wire and nontapering catheters and micropuncture sets for use even in infants.All sizes and lengths to be quoted.All FDA/CE /DCGI approved. To be quoted as One Set	25 Sets	Per Set

17. ASD Devices	1	ASD Device with all Accessories	Amplatzer ASD occlusion devices comprising of occlusion devices, sizing balloons, introducer and delivery system, sizer, sheaths with radio-opaque bands, and all the required accessories. All FDA/CE /DCGI approved. To be quoted as One Set	25 Sets	Per Set
18. Guide Wire Systems	1	Teflon 0.021 x 145 cms ST/J	Guide wire systems comprising of Teflon coated guide wires St and 3mm J 145 cms and exchange length 260-300 cms 0.021, 0.025, 0.032, 0.035, 0.038, Terumo guide wires St and 3 mm J short length and exchange length and all available sizes, Rosen type 1.5 mm J type guide wire, Amplatz extrastiff guide wire 3 mm J exchange length and meir back up wire as well as other speciality guide wires.	100 Nos	Each
	2	Teflon d 0.025 x 145 cms ST/ J		100 Nos	Each
	3	Teflon Coated 0.032 x 145 cms ST/3 mm J		500 nos	Each
	4	Teflon 0.035 x 145 cms ST J		500 nos	Each
	5	Teflon 0.038 x 145 cms ST/ J		500 nos	Each
	6	EXCHANGE .021STJ		50 Nos	Each
	7	EXCHANGE .025STJ		50 Nos	Each
	8	EXCHANGE .032STJ		200 Nos	Each
	9	EXCHANGE 0.035 ST J		200 Nos	Each
	10	EXCHANGE .038STJ		200 Nos	Each
	11	TERUMO 145		500 nos	Each
	12	TERUMO EXCHANGE		300 Nos	Each
	13	TERUMO STIFF EXCHANGE		200 Nos	Each
	14	AMPLATZ EXCHANGE		100 Nos	Each

19. Guiding Systems	1	Guiding Caths	All types and sizes of Guiding catheters with large minimum tip I.D and all curve sizes. Special curves for special purposes. Judkins left femoral 3/3.5/4/5/6/normal short tip short tip with side holes , Judkins femoral right, Amplatz type AR AL Multipurpose, King Multipurpose, Arani, Block, Hockey Stick, internal mammary artery, Williams, Dorros, El Gamal, Lcoronary by pass, R coronary by pass radial femoral approach 6F, 7F, 8F, 9F.ALL FDA/CE/DGCI APPROVED	500 Nos	Each
20. accessories for PTCA	1	PTCA WIRES	Accessories for PTCA comprising of Hiperflex/Hitorque floppy wires/Intermediate,standard wires extra support wires for stent delivery steerable guide wires linx extension wires, exchange wires all sizes, Magnum type wires Cross flex type terumo wires for crossing 100% occlusions, latest technology all type of wires used for PTCA/STENT implatations. PTCA sheath with obturator, 20cc disposable inflation device with 20 bar manometer, New Tuohy-Borst Y connectors kit comprising of adapter, insertion tool steering handle, PTCA manifold with flush device, Infusion accelerator bag with pressure manometer, 3 rinf control syringe for PTCA. Approximate nos: 50 sets each. All FDA/CE/DCGI approved.	500 Nos	Each
	2	INTERMEDIATE		500 Nos	Each
	3	STANDARD		500 Nos	Each
	4	EXTRASUPPORT		500 Nos	Each
	5	LINX EXTENSION		500 Nos	Each
	6	EXCHANGE		500 Nos	Each
	7	MAGNUM TYPE		500 Nos	Each
	8	CROSS WIRE		500 Nos	Each
	9	TOTAL OCCLUSION		500 Nos	Each
	10	PTCA SHEATH		50 Nos	Each
	11	20CC INFLATION DEVICE + TUOHY-BORST CONNECTOR+ STEERING HANDLE AS ONE SET		200 sets	Per Set
	12	PTCA MANIFOLD WITH FLUSH DEVICE		100 Sets	Per Set
	13	INFUSION ACCELERATO		100 Sets	Per Set

		R			
	14	3 RING CONTROL SYRINGE FOR PTCA		500 nos	Each
21. Prejelled Electrodes	1	Prejelled Electrodes	Ag/Agcl Imported quality patient prejelled electrodes for long term patient monitoring superior quality. A few to be sent to be tested on our patients as sample.	1,00,000 Nos	Each
22. Recorder Papers	1	Mortara ELI-100 ECG recorder paper	Recording papers for the following machines imported quality with the proper sensors for trouble free operation. Please send a small sample to test on our machines.	500 Rolls	Per Roll
	2	Mortara ELI-250 ECG Recorder paper		500 Packets	Per Pak
	3	Mortara ELI-350 ECG Recorder paper		500 Packets	Per Pak
	4	Quinton Stress System New Version Paper		500 packets	Per Pak
	5	L& T Vega Paper 80 mm Width Roll Type.		1000 Rolls	Per Roll
23. 3 Channel ECG Machine Paper	1	3 Channel ECG Machine Paper	3 channel ECG machine paper for Cardisunny Fukuda ME and Nihon Kohden Cardiofax ECG machine imported quality red graph 148 mm X 30m.: Please send a free sample to test on our machines.	1500 Rolls	Per Roll
24. VVI Pacemaker	1	VVI Pacemaker with ventricular tined Steroid Eluting lead and permanent lead introducer as one set	Ventricular Chamber implantable Permanent Pacemaker VVI Multiprogrammable, with Real-Time Telemetry Bipolar, with switchable polarity with matching steroid induced leads with low threshold for enhanced pacemaker longevity with matching subclavian introducer set to be quoted as one set. All FDA/CE/DCGI approved. Should be matching with the existing programmer or a programmer should be supplied at no extra cost.Life-Time warranty	50 Sets	Per Set

			should be given.		
25. SSI Pacemaker	1	SSI Pacemaker with ventricular/Atrial Screw-In Steroid Eluting lead and permanent lead introducer as one set	Single chamber implantable Permanent Pacemaker SSI Multiprogrammable, with Real-Time Telemetry Bipolar, with switchable polarity with the Atrial Sensitivity programmable to as high as 0.5 mV with matching steroid induced leads with low threshold for enhanced pacemaker longevity with matching subclavian introducer set to be quoted as one set. All FDA/CE/DCGI approved. Should be matching with the existing programmer or a programmer should be supplied at no extra cost. Life-Time warranty should be given.	50 Sets	Per Set
26. DDD Pacemaker	1	DDD Pacemaker with Atrial J and ventricular tined Steroid Eluting leads and 2 Introducers sheaths	Dual chamber Pacemaker DDD with the shortest possible A-V Delay of 30 ms with matching steroid eluting Atrial J /Atrial Screw-in lead and Steroid eluting Ventricular tined leads with telemetry and life time warranty and two matching Subclavian introducers to be supplied as one set. All FDA/CE/DCGI approved. Should be matching with the existing programmer or a programmer should be supplied at no extra cost.	25 Sets	Per Set

27.SSIR Pacemaker	1	SSIR Pacemaker with Ventricular / Atrial Screw-In Steroid Eluting lead and Permanent Lead Introducer	Single Chamber Rate-Responsive Pulse generators Single Chambered SSIR with the Atrial Sensitivity programmable as high as 0.5 mV with matching steroid eluting lead for rate responsive sensor incorporated pacing. All FDA/CE/DCGI approved. Should be matching with the existing programmer or programmer should be supplied at no extra cost.Life-time warranty should be given.Matching subclavian Introducer 1 per set.	50 Sets	Per Set
28. DDDR Pacemaker		DDDR Pacemaker with Atrial and Ventricular Tined Steroid Eluting leads and 2 Introducers	DDDR pacemaker stimulators with shortest A-V delayof 30 ms telemetry and extensive diagnostic and pacing features. Should be compatible with the existing programmeror the programmer should be supplied at no extra cost. Matching Atrial J tined atrial screw-in lead and ventricular tined lead both steroid eluting.Life-timewarranty shoud be given. Matching subclavian introducers 2nos per set. All FDA/CE/DCGI approved.	25 Sets	Per Set
29. VDD/VDDR Pacemakers	1	VDD/VDDR Pacemaker with Single Pass Steroid Eluting Lead and Introducer	VDD/VDDR pacemaker stimulator systems with matching single pass steroid eluting VDD lead and matching subclavian introducer.Should match to he existing programmer or the programmer should be given at no extra cost.Very short A-V delay of 30 ms. All FDA/CE/DCGI approved. Life-Time warranty should be given.	25 Sets	Per Set
30. Digital Pacemaker Systems	1	1. Digital SSI/SSIR Pacemakers with Steroid Eluting Lead and Permanent	1. State of the Art Digital Pacemakers SSI/SSIR Mode with Matching Pacemaker Lead and Matching Subclavian Introducer. A New State of the Art Matching Digital Programmer to be supplied	50 Sets	Per Set

		Introducer	at no extra cost. Life-Time Warranty should be given. All FDA/CE/DCGI approved.		
	2	1. Digital DDD/DDDR Pacemakers with Steroid Eluting Leads 2 Nos and Permanent Introducers 2 Nos.	2. State of the Art Digital Pacemakers DDD/DDDR Mode with Matching Pacemaker Leads Atrial& Ventricular and Matching Subclavian Leads. A New State of the Art Matching Digital Programmer to be supplied at no extra cost. Life-Time Warranty should be given..All FDA/CE/DCGI approved	25 Sets	Per Set
31.Triple Chamber pacemakers	1	Triple Chamber Pacemaker with Atrial, Ventricular and Coronary Sinus leads with all accessories for LV Lead Placment and permanent lead Introduers 3 Nos	A. Triple chamber pacing systems comprising of Pacemaker,Atrial J atrial screw in lead ventricular tined lead and coronary sinus lead with adaptor for long term pacing of atrial fibrillation and congestive heart failure patients.All leads should be steroid eluting.Should be matching with existing programmer or a new programmer should be provided at no extra cost.Life-Time warranty should be given. Matching 3 nos of subclavian introducers and all disposables for Coronary Sinus Lead placement. All FDA/CE/DCGI approved.	10 Sets	Per Set
	2	RV Bifocal Pacing Systems with Atrial RVOT and RV Apex leads and Introducers	B. RV Bifocal Pacing Systems with Pacemaker, Atrial J Tined Lead, RVOT Screw in Lead and RV Apex Tined Lead for RV Bifocal Pacing with 3 Introducer Sheaths and Matching programmer.All FDA/CE/DCGI approved.	10 Sets	Per Set

32. ICD Systems	1	ICD Pulse generator with ventricular Defibrillator tine lead and permanent lead introducer	Single Chamber Implantable Cardioverter Defibrillator for Life-Threatening Ventricular Tachycardia/Ventricular Fibrillation in patients resuscitated out of cardiac arrest. Facility for Brady and tiered therapy for Tachy. Should be supplied with Programmer and all testing devices, matching Ventricular Active/Passive Fixation Leads and Subclavian Introducer Sets. All FDA/CE/DCGI approved.	10 Sets	Per Set
33. Permanent Leads and Introducer Systems	1	ATRIAL J LEADS UNIPOLAR+INTRODUCER	1. All types of Ventricular and Atrial J/ Screw-in Permanent Pacemaker leads/Coronary Sinus Leads for permanent pacing with matching subclavian permanent pacemaker introducer kits. 2. Epimyocardial Sutureless Screw – In Lead 35/54 cm length. 3. Defibrillator Leads-Ventricular. 4. LV Leads with Introducer and all accessories as a complete Set. All FDA/CE/DCGI approved.	25 Nos	Each
	2	ATRIAL J LEADS BIPOLAR+INTRODUCER		25 Nos	Each
	3	ATRIAL LEADS SCREW IN+INTRODUCER		25 Nos	Each
	4	VENTRICULAR LEADS UNIPOLAR+INTRODUCER		25 Nos	Each
	5	VENTRICULAR LEADS BIPOLAR+INTRODUCER		25 Nos	Each
	6	VDD LEAD		10 Nos	Each
	7	CORONARY SINUS LEAD WITH INTRODUCER		10 Nos	Each
	8	EPIMYOCARDIAL LEAD		5 Nos	Each
	9	DEFIBRILLATOR LEADS		10 Nos	Each
34. Aortic/ Pulmonary Balloon Dilatation	1	PULMONARY VALVULOPLASTY BALLOONS	Pulmonary/Aortic balloon systems comprising of Pulmonary Valvuloplasty Balloons all sizes, curves and lengths to be quoted,	50 Nos	Each

Systems	2	AORTIC VALVULOPLASTY BALLOONS	Single diameter Aortic Valvuloplasty balloons of Cribier-Letac all sizes and lengths to be quoted, Stepped diameter balloons Cribier- Letac all sizes and lengths, Pediatric Valvuloplasty balloons with accelerator, Bifoil balloons, Trifoil Balloons all sizes and lengths,with Amplatz apex J extra stiff guide wire exchange lengths and 14 F balloon introducer systems All FDA/CE/DCGI approved.	50 Nos	Each
	3	BIFOIL/TRIFOIL BALLOONS		50 Nos	Each
	4	STEPPED DIAMETER BALLOONS		50 Nos	Each
	5	PEDIATRIC VALVULOPLASTY BALLOONS		50 Nos	Each
	6	AMPLATZ EXTRA STIFF WIRE 260/300CM 'J'		100 Nos	Each
	7	BALLOON INTRODUCERS 14 F		100 Nos	Each
	35. Venous Angio Systems	1		VENOUS CATHETER INTRODUCER SETS WITH NEEDLE, DILATOR, GUIDE WIRE, SHEATH WITHOUT HEMOSTATIC VALVE OR SIDE ARM.	Venous angiography systems comprising of venous catheter introducer sets with needle, dilator, guide wire, sheath without hemostatic valve, or sidearm. Sizes: 4F 5F 6F 7F 8F 9F Grollman pulmonary pigtail catheters, RV pigtails .
2		GROLLMAN PULMONARY PIGTAIL	50 Nos	Each	
3		RV PIGTAILS	100 Nos	Each	
36. Special Types of Needles and	1	INITIAL PUNCTURE NEEDLES	Initial puncture needles capable of accommodating 0.038 guide wires, Micropuncture introducer sets	1000 Nos	Each

Introducers	2	MICROPUNCTURE INTRODUCER SETS WITH 21G INTRODUCER SETS, COPE MANDRIL VASCULAR GUIDE, COAXIAL CATHETER	comprising of 21G introducer needle cope mandril vascular wire guide coaxial catheter pair and large introducers 14 g for valvuloplasty.	100 Nos	Each
	3	LARGE 14 F INTRODUCERS		50 Nos	Each
37 . PATIENT CABLES AND CHEST BULBS.	1	NIHON-KOHDEN CARDIOFAX ECG MACHINE	Patient cables for NIHON KOHDEN CARDIOFAX ECG MACHINE, MORTARA ELI-100/ELI-250 ECG MACHINE, PHILIPS TRIMLINE ECG MACHINE, QUINTON Q-710 ECG MACHINE, NEW QUINTON STRESS TEST CABLE,MORTARA ELI-350 ECG MACHINE, L& t VEGA ECG MACHINE chest bulbs adult and paediatric, limb leads straps. Both Mother Cable and Patient connecting Cables to be quoted.	5 Nos	Each
	2	MORTARA ELI-100 ECG MACHINE		12 Nos	Each
	3	MORTARA ELI-250 MACHINE		12 Nos	Each
	4	PHILIPS TRIMLINE ECG MACHINE		5 Nos	Each
	5	QUINTON Q - 710 ECG MACHINE		5 Nos	Each
	6	QUINTON STRESS CABLE		5 Nos	Each
	7	MORTARA ELI 350 MACHINE		5 Nos	Each
	8	L&T VEGA ECG MACHINE		12 Nos	Each
	9	CHEST BULBS ADULT		72 Nos	Each
	10	CHEST BULBS PEDIATRICS		48 Nos	Each
	11	LIMB LEADS ADULT		48 Nos	Each

	12	LIMB LEADS PEDIATRICS			Each
39 . ANGIO-KITS	1	Coronary AngioKits Femoral	Cardiac multipacks comprising of ventricular pig tail catheter, left coronary catheter, right coronary catheter, catheter sheath introducer sets.	500 Sets	Per Set
	2	Coronary AngioKits Radial	Radial Angio Kits with Sheath and TIG Catheter and wires	500 Sets	Per Set
40. RASHKIND BALLOON SEPTOSTOMY SYSTEM.	1	RASHKIND CATHETER	Rashkind balloon septostomy system comprising of rashkind recessed balloon septostomy catheter, rashkind septostomy balloon catheter, dual lumen catheter, transseptal catheter introducer and needle brockenborough padiatric and adult. All FDA/CE/DCGI approved.	25 Nos	Each
	2	DUAL CATHETER		25 Nos	Each
	3	TRANSSEPTAL CATHETER		25 Nos	Each
	4	BROCKENBO ROUGH NEEDLE ADULT		25 Nos	Each
	5	BROCKENBO ROUGH NEEDLE PEDIATRICS		10 Nos	Each
41 .TEMP PACING LEAD SYSTEMS	1	Temp Pacing Leads Sizes 4F,5F,6F	Bipolar temporary pacing electrodes, venous sheath systems with puncture needles, spring guide wire, dilator, Zucker multipurpose bipolar electrode catheters. Sizes: 4F,5F,6F,7F All FDA/CE/DCGI approved.	500 nos	Each
42. ECG JELLY AND ECHO JELLY	1	ECG JELLY BOTTLES	Superior Quality ECG Jelly and ECHO Jelly in bottles of 250 g long lasting Please send one sample each for testing	1000 Bottles	250 g single bottle
	2	ECHO JELLY BOTTLES		1000 Bottles	251 g single bottle
43. CONTRAST MEDIA MYOCARDIAL CONTRAST	1	CONTRAST MEDIA FOR ANGIOGRAPHY AND ANGIOPLASTY IONIC UROGRAFFIN	Contrast Media for Angiography and Angioplasty 1. Ionic and 2. Non-Ionic in 100 ml Bottles. 1. Ionic Urograffin type 76% or similar compounds,2. Non-Ionic Iohexol/Iopamidol 350/370 or similar compounds.All	1000 Bottles	100 ml bottle

		TYPE 76% 100 ML BOTTLES	FDA/CE/DCGI Approved		
	2	CONTRAST MEDIA FOR ANGIOGRAPHY AND ANGIOPLASTY NON-IONIC IOHEXOL/IOP AMIDOL 350/370 OR SIMILAR COMPOUNDS 100 ML BOTTLES		1000 Bottles	101 ml bottle
	3	Myocardial contrast	Myocardial Echocardiographic Contrast comprising of Sulphur Hexachloride or equivalent Micro Bubbles-All FDA/CE/DCGI Approved	100 Vials	Per Vial
B. CONSUMABLES PAC Items 1 ACT TUBES	1	ACT Tubes	ACT Measuring Tubes for Medtronic ACT II Machine	1000 Tubes	Per Tube
PAC ITEMS 2. FOR NOVA HEMOXIMETER MACHINE	1	Calibration Cartridge Phox basic B	Calibration Cartridge needed for 1st April 2010 to 31st March 2011	24 Nos	Each
	2	PO2 Membrane cap Kit	PO2 Membrane Cap Kit Boxes	4 Boxes	Each
	3	PCO2 membrane Cap Kit	PCO2 membrane Cap Kit	4 Boxes	Each
	4	W/R Pump	W/R Pump Complete Tubing Assay (inc connector tbgs)	2 Nos	Each
	5	Deproteinizing Solutions	Deproteinizing Solution (Box)	4 Boxes	Each
	6	SO2 % Calibration Ampoules	SO2 % Calibration Ampoules (10Low/10 High) 20 per Box	2 Boxes	Each
PAC ITEM 3 FOR AVOXIMETER MACHINE	1	Avoximeter Cuvettes	Cuvettes for Avoximeter	2000 Cuvettes	Each
	2	Thermal Paper	Thermal Paper for Avoximeter Printer	200 Rolls	Per roll

PAC ITEM FOR ROCHE DIAGNOSTIC MACHINE	1	Troponin T Quantitative Kit	Kit for Quantitative Measurement for Troponin T	1000 Kits	Per Kit
	2	N Terminal PRO BNP Kit	Kit for Measuring Quantitatively Levels of N-Terminal Pro BNP	100 Kits	Per Kit
	3	D-Dimer Kits	Kit for Measuring D-Dimer	50 Kits	Per Kit
B.NON-CONSUMABLES1: TEMPORARY OVER DRIVE PULSE GENERATORS.	1	APPENDIX-1: TEMPORARY OVER DRIVE PULSE GENERATORS .	Demand cum overdrive, Temporary pulse generators, capable of pacing in demand and asynchronous modes and rapid atrial overdrive pacing facility. To be supplied with 20 extra 9v alkaline batteries. All FDA/CE/DGCI approved.	10 Nos	Each
APPENDIX-2: RADIATION PROTECTION DEVICES	1	1. Vinyl layered aprons superior quality imported	. Vinyl layered aprons superior quality imported types for radiation protection during interventional procedures.All sizes and designs to be quoted.	30 Nos	Each
	2	2. Thyroid Collars.		30 Nos	Each
APPENDIX 3: CATH-LAB DRESSES AND LINEN	1	Cath-Lab Dresses	Cath-Lab Cotton Dress Shirt with three pockets and Pyjama with pockets Large and medium Sized Light Blue Colour with label of “ Cath-Lab JIPMER” on both the shirt and the pyjama. Pyjama and Shirt as One Pair	100 Pairs	Pair
