

| <b>Sl. No.</b> | <b>Name of the Items</b>                                    | <b>Pack size acceptable</b> | <b>Rate must be quoted per unit given below</b> |
|----------------|---|-----------------------------|---|
| 1              | ANA Hep-2 Cell line (IgG IFA immunoflorescence) slide test. | 12 well x 20 slides/Kit     |   |
| 2              | ANCA (PR3) Elisa  | 96 Test Kit                 |   |
| 3              | ANCA (MPO) Elisa  | 96 Test Kit                 |   |
| 4              | Anti-ds-DNA antibody Elisa                                  | 96 Test Kit                 |   |
| 5              | Antiphospholipid antibody screen (IgG/IgM) Elisa            | 96 Test Kit                 |   |
| 6              | Anti B2 GPI IgG Elisa                                       | 96 Test Kit                 |   |
| 7              | Anti B2 GPI IgM Elisa                                       | 96 Test Kit                 |   |
| 8              | Anti U1 RNP Antibody Elisa                                  | 96 Test Kit                 |   |
| 9              | Anti SSA/Ro Antibody Elisa                                  | 96 Test Kit                 |   |
| 10             | Anti SSB/La Antibody Elisa                                  | 96 Test Kit                 |   |
| 11             | Anti Scl-70 Antibody Elisa                                  | 96 Test Kit                 |   |
| 12             | Anti Sm Antibody Elisa                                      | 96 Test Kit                 |   |
| 13             | Anti LKM Antibody Elisa                                     | 96 Test Kit                 |   |
| 14             | Anti M2 (Mitochondria) Antibody Elisa                       | 96 Test Kit                 |   |
| 15             | Anti TG (Thyroglobulin) Antibody Elisa                      | 96 Test Kit                 |   |
| 16             | Anti TPO (Microglobulin) Antibody Elisa                     | 96 Test Kit                 |   |
| 17             | Anti CCP Antibody Elisa                                     | 96 Test Kit                 |   |
| 18             | Anti tTG antibody Elisa                                     | 96 Test Kit                 |   |
| 19             | Antireceptor (AChR) Antibody Elisa                          | 96 Test Kit                 |   |
| 20             | Anti GBM antibodies Elisa                                   | 96 Test Kit                 |   |
| 21             | Anti TSHR antibody Elisa                                    | 96 Test Kit                 |   |
| 22             | Anti 21 hydroxylase antibody                                | 96 Test Kit                 |   |
| 23             | Anti TNF Antibody (Human), Elisa                            | 96 Test Kit                 |   |
| 24             | Interleukin – 1 alfa (Human), Elisa                         | 96 Test Kit                 |   |
| 25             | Interleukin – 1 R (Human), Elisa                            | 96 Test Kit                 |   |
| 26             | Interleukin – 1 Beta (Human), Elisa                         | 96 Test Kit                 |   |
| 27             | Interleukin – 2 (Human), Elisa                              | 96 Test Kit                 |   |
| 28             | Interleukin – 2R (Human), Elisa                             | 96 Test Kit                 |   |
| 29             | Interleukin – 6 (Human), Elisa 96                           | 96 Test Kit                 |   |
| 30             | ANA Immunoblot (ANA profile 3)                              | 12 antigens x 16 strip/     |   |

|    |  |                |  |
|----|--|----------------|--|
|    |  | kit            |  |
| 31 | Anti human IgG FITC conjugate for immunofluorescence.  | 1 ml bottle    |  |
| 32 | HLA B27 Generic typing kit (PCR based)   | 24 tests/ pack |  |
| 33 | HLA Class I (A, B, C) Generic typing kit (PCR SSP based single or combitrays)  | 24 tests/ pack |  |
| 34 | HLA Class II (DR, DQ) Generic typing kit (PCR SSP based single or combitrays)  | 48 tests/Pack  |  |
| 35 | Immunomagnetic beads (Milteny / Dynal or equivalent)   |                |  |
| a  | CD8 depletion kits   | 2ml/Pack       |  |
| b  | CD34 isolation kit   | 2ml/pack       |  |
| c  | CD 133 isolation kit   | 2ml/pack       |  |
| d  | CD 43 isolation kit  | 2ml/pack       |  |
| e  | CD 117 isolation kit   | 2ml/pack       |  |
| 36 | Lupus Anticoagulant (KCT, RVVT) with standards   | 2ml/Pack       |  |
| 37 | Complement CH50 kit  | 24 tests/ pack |  |
| 38 | Immunoelectrophoresis Kit (consisting of Antihuman IgG, IgA, IgM,Ig kappa, Ig lamda)   | 24 tests/ pack |  |
| II | <b><u>MOLECULAR BIOLOGY<br/>CHEMICALS AND<br/>CONSUMABLES</u></b>  |                |  |
|    | <b><u>(MOLECULAR BIOLOGY GRADE CHEMICALS (MB)<br/>(Invitrogen, Merck,Qualigens, Sigma, Fluka, GE, Healthcare,<br/>Genei, Ranbaxy Only)</u></b> |                |  |
| A  | <b><u>DNA/RNA Extraction Chemicals</u></b>   |                |  |
| 1  | Disodium EDTA  | 500 g          |  |
| 2  | Sodium Chloride  | 500 g          |  |
| 3  | Chloroform   | 1 litre        |  |
| 4  | Octanol  | 1 litre        |  |
| 5  | Tris free base   | 500 g          |  |
| 6  | Ethanol (Absolute)   | 500 ml         |  |
| 7  | Trizol reagent (Invitrogen)  | 100 ml         |  |
| 8  | Lymphocyte separation medium (Density - 1.077 g/ml)  | 500 ml         |  |
| 9  | Iso amyl Alcohol   | 500 ml         |  |

|          |   |                                  |  |
|----------|---|----------------------------------|--|
| 10       | Iso propyl alcohol  | 500 ml                           |  |
| <b>B</b> | <b><u>PCR Reagents</u></b>  |                                  |  |
| 1        | Taq DNA polymerase with 10 x buffer                                 | 1000 U                           |  |
| 2        | dNTP's set  | 100 mM (4 x 100µl)               |  |
| 3        | Oligo (dT)  | 12-18 bases                      |  |
| 4        | RNase inhibitor   | 1000 U                           |  |
| 5        | M-MLV Reverse transcriptase with Buffer.                            | 1000 U                           |  |
| 6        | Total RNA Extraction Kit (from Human Blood sample)                  | For 5 ml sample, 20 preparations |  |
| 7        | Dimethyl sulphoxide   | 100 ml                           |  |
| 8        | MgCl <sub>2</sub> (25 mM)   | 1 ml vial                        |  |
| <b>C</b> | <b><u>Post PCR Chemicals</u></b>                                    |                                  |  |
| 1        | Acrylamide / bis-acrylamide (29:1) 30% solution                     | 100 ml                           |  |
| 2        | Ammonium per sulphate   | 100 g                            |  |
| 3        | TEMED   | 100 ml                           |  |
| 4        | Ethidium Bromide (10mg/ml solution)                                 | 10 ml                            |  |
| 5        | Agarose (Low EEO)   | 500 g                            |  |
| 6        | Hi-Di Formamide.  | 100 ml                           |  |
| 7        | DNA marker (100 bp ladder)  | 100 µg/ml - 50 µg                |  |
| 8        | DNA marker (1 kb ladder)  | 100 µg/ml - 50 µg                |  |
| 9        | ssRNA Marker (28s, 18s)   | 500µg/ml                         |  |
| 10       | Acrylamide powder   | 100 g                            |  |
| 11       | Bis-Acrylamide powder   | 100 g                            |  |
| 12       | Ficoll  | 100 g                            |  |
| 13       | Formaldehyde  | 500ml                            |  |
| 14       | DEPC  | 5ml                              |  |
| <b>D</b> | <b><u>Consumables for Real Time PCR</u></b>                         |                                  |  |
| 1        | TaqMan® Genotyping Master Mix, (allelic discrimination Master mix)  | 1 pack for 1000 reaction of 20µl |  |
| 2        | TaqMan® Universal PCR Master mix (2x concentration)                 | 1 pack for 1000 reaction of 10µl |  |
| 3        | Optical 96 well fast thermal cycling plates with barcode (code 128) | 1 pack of 20 nos                 |  |
| 4        | MicroAmp Caps, 8 Caps/Strip   | 300Strips/Pkg.                   |  |
| 5        | ABI PRISM™ Optical Adhesive Covers.                                 | 100/Pkg.                         |  |
| <b>E</b> | <b><u>Consumables for capillary</u></b>                             |                                  |  |

|            | <u>Sequencer</u>  |                  |  |
|------------|---|------------------|--|
| 1          | BigDye Terminator V 3.1 Cycle Sequencing Kit  | 100 runs         |  |
| 2          | POP-7 (384), 3500 Series  | 1 pack           |  |
| 3          | Cathode Buffer Container , 3500 Series  | 4 Pack           |  |
| 4          | Anode Buffer Container, 3500 Series   | 4 Pack           |  |
| 5          | Conditioning Reagent, 3500 Series   | 1 pack           |  |
| 6          | GeneScan 600 LIZ V.2.0 Size Standard, 3500 Series   | 1 pack           |  |
| 7          | HiDi Formamide 5ml , 3500 Series  | 4 Pack           |  |
| 8          | Array 24-CAP 36CM, 3500 Series  | 1 pack           |  |
| 9          | Array 24-CAP 50CM, 3500 Series  | 1 pack           |  |
| <b>F</b>   | <b><u>PCR CONSUMABLES(Plastic wares Only from Tarsons, Axygen, BD, Biosciences, Applied Biosystems)</u></b> |                  |  |
| 1          | Polypropylene thin walled PCR strips of 8 tubes with caps.  | Box of 125 nos   |  |
| 2          | Micro Amp optical 96 well reaction plates   | Box of 100 nos   |  |
| 3          | PCR compatible optical adhesive film/sealing film   | Box of 100 nos   |  |
| 4          | Splash free 96 well plate base  | Box of 100 nos   |  |
| 5          | PCR compatible Aluminium seal   | Pack of 100 nos. |  |
| 6          | Nylon Membrane  | Pack of 100 nos. |  |
| 7          | PVDF membrane   | Pack of 100 nos. |  |
| 8          | Polypropylene filter tips 0.2 – 10 µl   | Box of 1000 nos  |  |
| 9          | Polypropylene filter tips 20-200 µl   | Box of 1000 nos  |  |
| 10         | Polypropylene filter tips 100-1000 µl   | Box of 500 nos   |  |
| 11         | PCR strip rack with lid   | Pack of 4 nos    |  |
| <b>III</b> | <b><u>ANALYTICAL GRADE (AR) (Merck, Qualigens, Sigma, GE Healthcare, Genei, Ranbaxy Only)</u></b>           |                  |  |
| 1          | Tris buffer   | 500 g            |  |
| 2          | Absolute Ethanol (99%)  | 500 ml           |  |
| 3          | Hydrochloric Acid   | 500 ml           |  |
| 4          | Beta-Mercapto Ethanol   | 100 ml           |  |
| 5          | Glacial Acetic acid   | 500 ml           |  |
| 6          | Di sodium EDTA  | 500 g            |  |
| 7          | Boric Acid  | 500 g            |  |
| 8          | Trichloroacetic acid LR   | 500 ml           |  |

|           |   |                 |  |
|-----------|---|-----------------|--|
| 9         | Picric Acid   | 500 ml          |  |
| 10        | EDTA Potassium salt   | 500 g           |  |
| 11        | Basic Fuchsin   | 100 g           |  |
| 12        | Phenol  | 500 g           |  |
| 13        | Sodium dodecyl sulphate (SDS)   | 500 g           |  |
| 14        | Sodium Hydroxide Pellets  | 500 g           |  |
| 15        | Silicone Oil  | 500 ml          |  |
| 16        | Potassium permanganate  | 500 g           |  |
| 17        | Formaldehyde solution   | 500 ml          |  |
| 18        | Disodium hydrogen phosphate.  | 500 g           |  |
| 19        | Potassium dihydrogen phosphate.   | 500 g           |  |
| 20        | Ammonium chloride   | 500 g           |  |
| <b>IV</b> | <b><u>Consumables for MULTIPLEX ANALYSER</u></b>  |                 |  |
| 1         | MULTIPLEX MAP for Human Cytokine/Chemokine panel (consisting of IL1, IL6, IL8, TNF $\alpha$ , IL15, IL17, IL23, MCP 1, IFN $\gamma$ , IL32, RANTES, MIP 1, IL4, IL10, IL13, TGF $\beta$ ) | 100 test/pack   |  |
| 2         | Anti HLA Abs  |                 |  |
| <b>V</b>  | <b><u>Consumables for Flowcytometry</u></b>   |                 |  |
| 1         | Anti Human Monoclonal Antibodies for Flowcytometry (CD1c, CD141, CD304, CD303, CD2, CD3, CD4, CD8, CD16, CD56, CD34, CD133, CD271, CD25, CD19, CD20, CD22, CD138)                         |                 |  |
| <b>VI</b> | <b><u>TISSUE CULTURE CHEMICALS AND CONSUMABLES</u></b>  |                 |  |
| <b>A</b>  | <b><u>TISSUE CULTURE GRADE CHEMICALS (TC) (Gibco, Sigma, Perkin Elmer only)</u></b>   |                 |  |
| 1         | RPMI 1640 with L-Glutamine and sodium bi-carbonate (Solution)   | 1 Litre         |  |
| 2         | RPMI 1640 with L-Glutamine and sodium bi-carbonate (1 lit., Powder form)  | 1 litre x 10nos |  |
| 3         | Trypsin (1:250)   | 50 g            |  |
| 4         | L-Glutamine   | 100 g           |  |
| 5         | Penicillin – Streptomycin solution  | 100 ml          |  |
| 6         | Antimycotic solution  | 100 ml          |  |
| 7         | HEPES   | 100 g           |  |

|          |   |                     |  |
|----------|---|---------------------|--|
| 8        | Fetal Calf serum (FCS)  | 500 ml              |  |
| 9        | Hanks balanced salt solution  | 1lit, Powder form   |  |
